Subject: Upcoming San Jacinto RI/FS review

Hi All:

This afternoon, you will receive an email advising the posting of the draft RI/FS Work Plan (with draft SLERA) and the draft final Sediment SAP. Please initiate review with your review teams upon receipt.

1) Draft RI/FS Work Plan, draft SLERA:

- All coordinators: Please initiate review and advise review teams that a meeting at TCEQ has been planned for internal discussion of our respective comments (EPA, TCEQ, Trustees, HC). The date for this meeting is: Fri, 5/7, 9am-5pm, TCEQ Building C, Room 131E. A conference line will be sent prior to the meeting for those who cannot attend.
- All coordinators: Please send a draft version of your consolidated comments on or before Thur 5/6, so that we'll have it ready for the internal meeting, thanks.

2) Draft Final Sediment SAP:

- Luda, Jessica: Please send a letter/memo (with letterhead) formally indicating TCEQ, Trustees agreement on the draft final Sediment SAP by Mon 4/19. I will then formally approve the document for the RI/FS UAO. All resolutions of our comments are included in the grid/table format with this document.
- Steve H.: The draft final Sediment SAP has already gone thru review; however, it will be available for HC as part of involving HC in the technical review process. Please include comments, if any, as part of the draft consolidated comments for the overall RI/FS Work Plan. We can then discuss them for consideration in future sampling events at the internal meeting, thanks.

Thanks,
